A Step2 classic reinvented!

- From the company that created the ride-on roller coaster toy category comes a whole new way for the product to grow with your child!
- As your child gains confidence on the Up & Down Coaster™, use the Track Expansion Pack to take them to higher heights and give them a longer ride.
- Booster step adds an additional 5 inches to the loading zone, while the track extension provides over 4 feet of additional riding.
- Continue to challenge kids' motor skills and build confidence with the larger configuration.
- Made EverTough™ to keep your track looking new ride after ride (and after ride after ride...)
- Add on to your existing Up & Down Roller Coaster™ (Classic & Anniversary Editions) or choose the bundle for the ultimate coaster set!
